## Radio Operation

### Charging the Radio

- Please ensure the radio is off when charging
- Charging while the radio is on shortens the lifespan of your battery
- Full charge may take up to 3 hours
- The radio should be placed in the charger with the keypad (front of radio) facing the front of the charger.

### Turning the Radio On

- Rotate the on / off volume knob to power on & set the volume
- If the radio is tuned to a non-programmed channel it will emit a continuous error tone
- Please reference the zone / channel list to select the appropriate channel

### Viewing Text Messages

- When the radio receives a text message it will beep, vibrate & display a mail icon
- Pressing the select button will allow you to view the message
- If multiple messages have been received, pressing the select button will display a list of messages
- You can highlight the messages using the scroll button
- Pressing the select button again will allow you to view the highlighted message

### Sending Text Messages

- To send a text, press the select button to display the menu
- Use the scroll button to scroll down to the quick text option & press the select button
- This will display the pre-programmed text messages
- Use the scroll button to scroll until the desired message is highlighted then press the select button
- You can add to a message by using the keypad
- Once completed, press the select button to confirm & select the send option, then select contact list
- Use the scroll button to scroll to the desired contact & press the select button to send

### Transmitting Voice Calls

- To initiate a transmission hold the Push to Talk (PTT) Button
- Once you press the PTT Button, the radio will emit a talk permit chirp
- This talk permit chirp signals that you can begin to speak
- When done speaking release the PTT Button
- For a set period of time the system resources are held to allow immediate responses
- If there is no response within this period the system will be released signaled by a call ended chirp
